Gaétan Hains

Reviewed international journals

- [Anantharaman06] S. Anantharaman, P. Gastin, G. Hains, J. Mullins et M. Rusinowitch, editors. *Selected Papers of the International Workshop on Security Analysis of Systems: Formalisms and Tools (SASYFT2004)*, volume 11, number 1. Journal of Automata, Languages and Combinatorics (Otto von Guericke-Universität, Magdeburg), 2006.
- [Bamha99c] M. Bamha et G. Hains. Frequency-adaptive join for shared nothing machines. *Parallel and Distributed Computing Practices*, 2(3):333–346, September 1999. Also appears in F. Columbus ed. Progress in Computer Research Vol.II, Nova Press 2001.
- [Granvilliers00] L. Granvilliers et G. Hains. A conservative scheme for parallel interval narrowing. *Information Processing Letters*, 74(3–4):141–146, May 2000.
- [Hains93b] G. Hains et L. M. R. Mullin. Parallel functional programming with arrays. *The Computer Journal*, 36(3):238–245, 1993.
- [Hains01a] G. Hains, F. Loulergue et J. Mullins. Concrete data structures and functional parallel programming. *Theoretical Computer Science*, 258(1–2):233–267, April 2001.
- [Hains01b] G. Hains et Q. Miller, editors. *High-Level Parallel Programming and Applications*, volume 11, number 4. Parallel Processing Letters (World Scientific), December 2001. Selected papers from HLPP2001, Orléans, March 2001.
- [Hains03a] G. Hains. *Book Review* on *implicit parallel programming in ph* by R. S. Nikhil and Arvind, Morgan Kaufmann, 2001. *Journal of functional Programming*, 13:824–826, 2003.
- [Hains03b] G. Hains et F. Loulergue, editors. *High-Level Parallel Programming and Applications*, volume 13, number 3. Parallel Processing Letters (World Scientific), September 2003. Selected papers from HLPP2003, Paris, June 2003.
- [Li12] Chong Li et Gaétan Hains. SGL: Towards a bridging model for heterogeneous hierarchical platforms. *Int. J. High Performance*

Computing and Networking, 7(2):139–151, 2012. accepted for publication.

- [Loulergue00] F. Loulergue, G. Hains et C. Foisy. A calculus of functional BSP programs. *Science of Computer Programming*, 37(1–3):253–277, May 2000.
- [Merlin07] A. Merlin et G. Hains. A bulk synchronous process algebra. *Computer languages, systems and structures*, 33(3–4), October–November 2007. Special issue on Semantics and cost models for high-level parallel programming.
- [Utard95] G. Utard et G. Hains. Deadlock-free absorption of barrier synchronisations. *Information Processing Letters*, 56:221–227, 1995.

Reviewed national journals

- [Hains83] G. Hains. Groupe symétrique et tableaux de Young. Remarques sur l’algorithme générateur. *Bulletin de l’Association Mathématique du Québec*, Octobre 1983.
- [Hains90a] G. Hains. La complexité du filtrage associatif-commutatif. *Comptes Rendus de l’Académie des Sciences, Paris*, t.311, Série I(11):741–744, Novembre 1990. Comité de Lecture Section Mathématiques.

Books or contributions to books

- [Ballereau00b] O. Ballereau, F. Loulergue et G. Hains. High level BSP programming: BSML and BS λ . In G. Michaelson, P. Trinder et H.-W. Loidl, editors, *Trends in Functional Programming*, chapitre 4, pages 29–38. Intellect Books, Bristol UK, Portland, OR, USA, August 2000. Preliminary version appeared in proceedings of SFP’99: First Scottish Functional Programming Workshop, TR RM/99/9, pp.43–52, Heriot-Watt University, September 1999.
- [Ballereau02] O. Ballereau, G. Hains et A. Lallouet. *BSP Constraint Programming*, chapitre 7, pages 95–111. Advances in Computation: Theory and Practice. Nova Science Books and Journals, 2002.
- [G. Hains02] G. G. Hains et F. Loulergue. *Functional Bulk Synchronous Parallel Programming using the BSMLlib Library*, chapitre 11, pages 165–178. Advances in Computation: Theory and Practice. Nova Science Books and Journals, 2002. Sergei Gorlatch and Christian Lengauer editors.
- [Hains94c] G. Hains. Programming with array structures. In A. Kent et J. G. Williams, editors, *Encyclopedia of Computer Science and Technology*, volume 14, pages 105–119. M. Dekker inc, New-York, 1994. Appears also in *Encyclopedia of Microcomputers*.

- [Mullin91] L. Mullin, M. Jenkin, G. Hains, R. Bernecky et G. Gao, editors. *Arrays, Functional Languages and Parallel Systems*, Montréal, 1991. Kluwer.

International conferences with programme committee and proceedings

- [Alrammal09a] M. Alrammal, G. Hains et M. Zergaoui. Intelligent ordered XPath for processing data streams. In N. Stojanovic ed., editor, *Stanford Spring Symposium (SSS'09) of the AAAI: Intelligent Event Processing Stream*, page 8 pp., Stanford (CA), USA, March 2009. AAAI.
- [Alrammal09b] M. Alrammal, G. Hains et M. Zergaoui. Performance measurements towards the optimization of stream processing for XML data. In J. Lu, editor, *Proceedings of the 2009 International Conference on Internet Computing(ICOMP'09) ISBN 1-60132-110-4*, pages 227–233, Las Vegas Nevada, USA, July 2009. CSREA Press.
- [Alrammal11a] M. Alrammal, G. Hains et M. Zergaoui. Path tree: document synopsis for XPath query selectivity estimation. In Horacio Gonzalez-Velez et Sabri Pllana ed., editors, *The Fifth International Conference on Complex, Intelligent, and Software Intensive Systems (CISIS-2011)*, pages 321–328, Seoul, Corea, 2011. IEEE Computer Society.
- [Alrammal12b] Muath Alrammal et Gaétan Hains. A performance model for forward XPath: Scalable stream-processing of large XML documents. In *International Conference on High Performance Computing and Simulation (HPCS-2012)*, pages –, Madrid, Spain, July 2012. IEEE. To appear in the Proceedings of HPCS2012.
- [Alrammal12c] Muath Alrammal et Gaétan Hains. A stream-based selectivity estimation technique for forward XPath. In *8th International Conference on Innovations in Information Technology (IIT'12)*, pages –, United Arab Emirates, March 2012. IEEE. To appear.
- [Bamha98] M. Bamha et G. Hains. A self-balancing join algorithm for SN machines. In Y. Pan, S. G. Akl et K. Li, editors, *Proceedings of International Conference on Parallel and Distributed Computing and Systems (PDCS)*, pages 285–290, Las Vegas, USA, 1998. IASTED/ACTA Press.
- [Bamha99a] M. Bamha, F. Bentayeb et G. Hains. An efficient scalable parallel view maintenance algorithm for shared nothing multi-processor machines. In Trevor Bench-Capon, Giovanni Soda et A Min Tjoa, editors, *10th International Conference on Database and Expert Systems Applications, DEXA'99*, numéro 1677 in Lecture Notes in Computer Science, pages 616–625, Florence, Italy, August 30 – September 3 1999. Springer-Verlag.

- [Bamha00a] M. Bamha et G. Hains. A skew-insensitive algorithm for join and multi-join operations on shared nothing machines. In M. Ibrahim, J. Küng et N. Revell, editors, *11th International Conference on Database and Expert Systems Applications, DEXA 2000*, numéro 1873 in Lecture Notes in Computer Science, pages 644–653, Greenwich, U.K., September 2000. Springer-Verlag.
- [Blanc04] M. Blanc, P. Courtieu, G. Hains, L. Oudot et Ch. Toinard. A novel approach for distributed updates of MAC policies using a meta-protection framework. In *Supplementary Proceedings of the 15th IEEE International Symposium on Software Reliability Engineering (ISSRE2004)*, Saint Malo, France, nov 2004.
- [Debourges99] I. Debourges, G. Hains, S. Guilloché et E. de la Clergerie. Vers un analyseur syntaxique parallèle. In *Information Technology, Proceedings of the fourth international symposium on Economic Informatics - May 99*, Bucharest, Romania, May 1999.
- [Gava12] Frédéric Gava, Chong Li et Gaétan Hains. Implementation of data-parallel skeletons: a case study using a coarsened-grained hierarchical model. In *The 11th International Symposium on Parallel and Distributed Computing (ISPDC-2012)*, pages –, Munich, Germany, June 2012. . To appear in the Proceedings of ISPDC2012.
- [Granvilliers98] L. Granvilliers, G. Hains, Q. Miller et N. Romero. A system for the high-level parallelization and cooperation of constraint solvers. In Y. Pan, S. G. Akl et K. Li, editors, *Proceedings of International Conference on Parallel and Distributed Computing and Systems (PDCS)*, pages 596–601, Las Vegas, USA, 1998. IASTED/ACTA Press.
- [Hains88] G. Hains et B. S. Todd. The parallel implementation of a medical diagnostic model. In L. P. Kartashev et S. I. Kartashev, editors, *Third International Conference on Supercomputing ICS88*, volume I, pages 222–229, Boston, Mass., 1988. International Supercomputing Institute. 3 volumes.
- [Hains89a] G. Hains. The compaction of acyclic terms. In E. Odijk, M. Rem et J.-C. Syre, editors, *PARLE '89, Parallel Architectures and Languages Europe*, numéro 365 and 366 in Lecture Notes in Computer Science, pages 288–303, Eindhoven, The Netherlands, June 1989. Springer.
- [Hains93a] G. Hains et C. Foisy. The data-parallel categorical abstract machine. In A. Bode, M. Reeve et G. Wolf, editors, *PARLE'93, Parallel Architectures and Languages Europe*, numéro 694 in Lecture Notes in Computer Science, pages 56–67, Munich, June 1993. Springer.
- [Hains95b] G. Hains et J. Mullins. A metacircular data-parallel functional language (extended abstract). In Haridi, Ali et Magnusson, edi-

- tors, *EURO-PAR'95*, numéro 966 in Lecture Notes in Computer Science, pages 711–714, Stockholm, August 1995. Springer.
- [Hains96c] G. Hains et J. Mullins. Array structures and data-parallel algorithms. In Bougé, Fraigniaud, Mignotte et Robert, editors, *EURO-PAR'96*, numéro 1124 in Lecture Notes in Computer Science, pages 409–416, Lyon, 1996. LIP-ENSL, Springer.
- [Hains97] G. Hains et M. H. van Emden. Towards high-quality, high-speed numerical computation. In *PACRIM'97, Pacific Rim Conference on Communications, Computers and Signal Processing*, University of Victoria, B.C., Canada, August 1997. IEEE.
- [Hains98] G. Hains. Subset synchronization in BSP computing. In H.R. Arabnia, editor, *PDPTA'98 International Conference on Parallel and Distributed Processing Techniques and Applications*, volume I, pages 242–246, Las Vegas, July 1998. CSREA Press.
- [Hains02a] G. Hains et M. Bergeron. The BNAI analyzer: A tool for verifying admissible information flow in protocols. In *International Conference on Parallel and Distributed Computer Systems*, Cambridge MA, USA, November 2002. IASTED.
- [Khmelevsky11a] Y. Khmelevsky, M. Govorov, G. Hains et L. Burge. Distance learning components in Computer Science and GIS. In David Casperson ed., editor, *ACM SIG-CSE Western Canadian Conference on Computing Education*, pages 17–21, Prince George, BC, Canada, May 2011. ACM Digital Library.
- [Khmelevsky11b] Y. Khmelevsky, G. Hains, E. Ozan, V. Ustimenko, C. Kluka et D. Syrotsky. International collaboration in SW engineering research projects. In David Casperson ed., editor, *ACM SIG-CSE Western Canadian Conference on Computing Education*, pages 52–56, Prince George, BC, Canada, May 2011. ACM Digital Library.
- [Khmelevsky12] Y. Khmelevsky, G. Hains et C. Li. Automatic code generation within student's software engineering projects. In *ACM SIG-CSE Western Canadian Conference on Computing Education (WC-CCE'12)*, UBC, Vancouver, BC, Canada, May 2012. ACM Digital Library.
- [Li11a] C. Li et G. Hains. A simple bridging model for high-performance computing. In W. Smari ed., editor, *(HPCS2011) International Conference on High Performance Computing and Simulation*, page 8 pp., Istanbul, Turkey, July 2011. IEEE Computer Society.
- [Loulergue97b] F. Loulergue et G. Hains. Parallel functional programming with explicit processes: Beyond SPMD. In C. Lengauer, M. Griebel et S. Gorlatch, editors, *Euro-Par'97 Parallel Processing*, numéro 1300

in Lecture Notes in Computer Science, pages 530–537, Passau, Germany, August 1997. Springer.

- [M. Blanc05] G. Hains M. Blanc, P. Courtieu. Mandatory access control on distributed systems: A metapolicy framework. In *First Colloquium on Risk and Security of the Internet and Systems (CRiSIS 2005)*, pages 133–144, ENSI-Bourges, France, 2005.
- [S. Anantharaman05] G. Hains S. Anantharaman, J. Chen. A synchronous process calculus for service costs. In *SEFM'05, The 3rd IEEE Int. Conference on Software Engineering and Formal Methods*, pages 435–444, 2005.

International workshops with programme committee and proceedings

- [Anantharaman03b] S. Anantharaman et G. Hains. Information flow analysis via equational reasoning. In J. Levy, editor, *Proc. of the Workshop UNIF'03, Int. Conf. RDP'03, Valencia, Spain*. Universidad Politecnica de Valencia, 2003.
- [Anantharaman03c] S. Anantharaman et G. Hains. A synchronous bisimulation-based approach for information flow analysis. In *Third Workshop on Automated Verification of Critical Systems: (AVOCS'03)*, Southampton, (UK), April 2003. Long preliminary version appears as LIFO RR2003-01 <http://www.univ-orleans.fr/SCIENCES/LIFO>.
- [Ballereau00a] O. Ballereau, G. Hains et A. Lallouet. BSP constraint programming. In S. Gorlatch et C. Lengauer, editors, *CMPP'2000 International Workshop on Constructive Methods for Parallel Programming*, Ponte de Lima, Portugal, July 2000. Fakultät für Mathematik und Informatik, Univ. Passau, Germany, Technical Report MIP-0007.
- [Bamha96] M. Bamha et G. Hains. Implementing VCODE with static processes. In *PCW'96, Sixth Parallel Computing Workshop*, pages P1–H–1 to P1–H–4, Kawasaki, Japan, 1996. Fujitsu-Labs, FPCRf. Extended abstract.
- [Bamha05] M. Bamha et G. Hains. An efficient equi-semi-join algorithm for distributed architectures. In *Workshop on Practical Aspects of High-Level Parallel Programming (PAPP), ICCS Conference*, volume 3515 de *Lecture Notes in Computer Science*. Springer-Verlag, April 2005.
- [Hains91a] G. Hains. Matrix inversion in 3 dimensions. In Mullin et al. [Mullin91], pages 295–302.
- [Hains91b] G. Hains. Multidimensional arrays as parallel data structure. In *Abstract Machine Models for Highly Parallel Computers*, pages 41–44, University of Leeds, UK, March 1991. British Computer Society Workshop.

- [Hains94a] G. Hains. Parallel functional languages should be strict. In B. Pehrson et I. Simon, editors, *Workshop on General Purpose Parallel Computing. World Computer Congress*, volume 1, pages 527–532, Hamburg, September 1994. IFIP, North-Holland.
- [Hains94d] G. Hains. Towards portable and efficient parallel functional languages. In *Third Parallel Computing Workshop*, Kawasaki, Japan, November 1994. Fujitsu Laboratories, Fujitsu Parallel Computing Research Facilities.
- [Hains00] G. Hains et F. Loulergue. Functional bulk synchronous parallel programming using the BSMLlib library. In S. Gorlatch et C. Lengauer, editors, *CMPP'2000 Second International Workshop on Constructive Methods for Parallel Programming*, Ponte de Lima, Portugal, July 2000. Fakultät für Mathematik und Informatik, Univ. Passau, Germany, Technical Report MIP-0007.
- [Hains07] G. Hains. Efficient static checking of dynamic access control in shared multiprocessor environments. In *Workshop on Collaboration and Security (COLSEC'07), part of The 2007 International Symposium on Collaborative Technologies and Systems (CTS'07)*, Orlando (FL), USA, May 2007.
- [Hains12] Gaétan Hains et Muath Alrammal. Performance and scalability of XML query processing. In *Second International Workshop on Intelligent Computing at Large Scale (ICLS-2012)*, pages –, Palermo, Italy, July 2012. IEEE. To appear in Proceedings of ICLS.
- [Loulergue98b] F. Loulergue, G. Hains et C. Foisy. A calculus of recursive-parallel BSP programs. In S. Gorlatch, editor, *CMPP'98 International Workshop on Constructive Methods for Parallel Programming*, Marstrand, Sweden, June 1998. Fakultät für Mathematik und Informatik, Univ. Passau, Germany, Technical Report MIP-9805.
- [Mallick12] Sayanta Mallick et Gaétan Hains. Title. In *International Conference on High Performance Computing and Simulation (HPCS-2012)*, pages –, Palermo, Italy, July 2012. IEEE. To appear as Poster Paper in the Proceedings of HPCS2012.
- [Merlin01] A. Merlin, G. Hains et F. Loulergue. An SPMD environment machine for functional BSP programs. In *SFP'2001 Scottish Functional Programming Workshop*, Stirling, August 2001.
- [Merlin04] A. Merlin et G. Hains. A generic cost model for concurrent and data-parallel meta-computing. In *Fourth Workshop on Automated Verification of Critical Systems: (AVOCS'04)*, September 2004. Long preliminary version appears as LIFO RR2004-06.

National conferences with programme committee

- [Foisy94] C. Foisy, J. Vachon et G. Hains. DPML: de la sémantique à l’implantation. In P. Cointe, C. Queinnec et B. Serpette, editors, *Journées Francophones des Langages Applicatifs*, pages 185–214, Noirmoutier, Février 1994. INRIA.
- [Hains92a] G. Hains, O. Biberstein et C. Foisy. La compilation de fonctions de tableaux en code MIMD. In C. Queinnec, editor, *Secondes Journées Francophones des Langages Applicatifs, JFLA-92*, pages 3–20, Perros-Guirec, France, Février 1992. Revue Bigre no. 76-77.
- [Lallouet99b] A. Lallouet et G. Hains. Programmation par contraintes parallèle: l’approche CLP(X^1). In *Journées Francophones de Programmation Logique et par Contraintes*, Lyon, Juin 1999. AFPLC, Hermès.
- [Loulergue97c] F. Loulergue et G. Hains. Programmation fonctionnelle parallèle en processus statiques: Une approche dénotationnelle. In *Journées Francophones des Langages Applicatifs JFLA’97*. INRIA, Janvier 1997.
- [Merlin02] A. Merlin et G. Hains. La machine abstraite catégorique BSP. In L. Rideau, editor, *Journées Francophones des Langages Applicatifs (JFLA2002)*. INRIA, Janvier 2002. ISBN 2-7261-1197-1.

Reports and other publications
